6. EPSTEIN PUBLIC-RECORD MAP

Relationship	Trump and Jeffrey Epstein were socially acquainted for years; public photographs and records document their association.
Flights	A DOJ-released January 2020 record says Trump was listed on at least eight Epstein-plane flights between 1993 and 1996.
Other listed passengers	The same record describes flights listing Marla Maples, Tiffany Trump and Eric Trump on some trips; Ghislaine Maxwell was also listed on at least four flights involving Trump.
Island	Epstein owned Little Saint James in the U.S. Virgin Islands, commonly called 'Epstein Island'.
2025 release	DOJ released a first phase including flight logs, a redacted contact book and other records.
2026 release	DOJ said January 30, 2026 publication added more than 3 million pages, 2,000+ videos and 180,000 images, bringing the production to nearly 3.5 million pages.

Critical evidence rule: a name appearing in an Epstein document, contact book, photograph or flight record does not by itself establish criminal conduct. The DOJ also warned that its large 2026 production can contain false or falsely submitted material because public submissions to the FBI were included. Victim-identifying information and protected material were redacted.
